ABUAKWA SOUTH MUNICIPAL
PUBLIC RELATIONS AND
COMPLAIN SUB COMMITTEE

Dear Sir/Madam,

INTERFERANCE OF DUTY AS AN ASSEMBLY MEMBER BY THE FORMER ASSEMBLY MEMBER

I will like to complain to the Public Relations and Complain Sub Committee and Honorable P.M. about the humiliating am going through.

- The formal assembly member has refused to hand over the community property to me.
- During the registration of Ghana Card, I issued numbers to the community and he went there to discard the numbers and shared his own numbers around 2:00am.
- Whenever I call for communal labour, he also calls his own at a different area.
- He has refused to tell us the company that sponsored our public toilet so it's still not opened.
- He has employed workers for the cocoa extension division work (ie. Pollination, treating of black pod etc) but I have no knowledge about it and don't even know the workers.
- He is refusing to hand over the community wheelbarrows (3), shovel (2) and pick axe (2) for me for a successful communal labour.
- We the assembly members has been given the authority to create tin numbers for our electoral area for a successful N.B.S.SI. however, he has also participated in the same exercise and creating tin numbers for others.
- He ordered excavator to work on site for JHS Block without notice and he defend himself that, he is absolutely right till the contractor came and settle that issue.

All efforts have been done to stop him but he refused to listen. Please help me to stop him so I can have peace.

Thank you.

Dear Sir/Madam,

COMPLAINT

I am a 77year old Pensioneer who lives in Odumase but owns a farm land in Potroase.

Part of my farm which has lots of Cocoa trees was destroyed last week on 5th August 2020 ~~by~~ due to the ongoing road work. I asked the tractor driver and he told me they were asked to Straighten the road. I have lost all my cocoa trees due to this and Pm writing to seek for help with my situation.

I hope to hear from you soon.

AKIM APEDWA

28TH JULY, 2020.

TO

MUNICIPAL CHIEF EXECUTIVE

ABUAKWA SOUTH

KIBI.

Dear Sir,

REPORTS ON THE HAPPENINGS AT THE APEDWA HEALTH CENTRE OF LATE

I am writing an official letter to the authorities as an in charge of Apedwa health centre stating that somewhere last year one Mr. Yeboah, an elder in the town approached me with another man with a request that the chief of the town sent them to come and see me to cut some trees from a reserve around the clinic to go so they could use to renovate chief palace for a funeral of one of a deceased chief.

I informed my District officer then by name Mr. Owusu Ansah, we agreed and told them we would need some of the sawn wood to repair and make new benches for the clients who patronize the facility.

He cut the logs and never fulfilled the promise. I was again at the office, this year in April, 2020to be precise. He came with his daughter asking that he wanted a place at the facility to erect a structure to give the lady who has finished Lab Technician ship to practice, I said no but if he liked he could either see the Director or write a letter depicting that idea so that I forward it. I quickly informed our new Director by name Madam Augustina Nartey.

Director, when she got the message asked me to arrange so that she come and introduce herself to the elders.

We went and she told them that the clinic needs a lab which time has long overdue and that the whole elders should team up to give the facility and if it remain

instrument and the staff she the director will write to the authorities for those items and we left.

Within about a month I went to weekends and came and saw packed blocks. I asked those mason working on it and they said it is Mr. Yeboah who engaged them. I called the director to inform her again. She came to see and even talked about the place they sited the lab. Then later it dawned on me to make enquiries about the authenticity of the message we had from Mr. Yeboah man has come to confirm saying it is the whole elders who selected him to do the project of the facility and even director is aware of such negotiation.

I immediately informed one communication operator who is more or less part of the elder's family to make investigation about the authenticity of the whole episode.

He came out with a report that the whole thing is different and that confirmed my fear and doubt about the integrity of the man and again informed my director and she took the matter from there.

Thank you all, I hope my narrative would be read and scrutinized.

Yours in service,

.....

Dear Sir,

PETITION

We the undersign persons are residence of Dwomo – Link, Apedwa New Town, where we have our farms. For over a year now, sheep have been destroying our crops. We have reported to the Unit Committee and the Assembly man to address this issue as it is affecting our farms.

All efforts for the owner, Mr. Nana Amanianpong, to keep his sheep in their pen have proved futile. On the 6th April, 2020, the Unit Committee members advised the owner once again to put his sheep to order since they are destroying our crops but he said, "I will not keep the sheep in their pen today nor tomorrow, if the sheep can hear like I will even instruct them to destroy Mr. Agyei and Moses farms since they are my enemies and you can take me to wherever you like".

We are therefore appealing to your outfit to come to our aid and take steps since the animals are destroying our farms especially the maize we have planted this season.

Counting on your usual co-operation.

Yours faithfully,

Undersigns

Dear Sir,

LODGE OF COMPLAINS

I hereby wish to bring to the notice of the assembly disturbances caused by my neighbor at School Junction in Akwadum.

My neighbor who goes by the name Kotoo is an Aluminium Pot Maker who makes a lot of noise disturbing the whole neighborhood as early as 5 o'clock every morning. The smoke from the pot making is always felt in my room since he lives just behind my window and this makes it difficult to stay inside. He also prays very loudly at night from 8pm to 4am in the morning in both the Muslim and Christian way and we can hardly sleep at night.

This has been going on for a year now which I confronted him about but he didn't listen making me take the issue to some elders in the neighborhood including his landlord who promised to do something about it but to no avail.

I am therefore pleading with the Municipal Assembly to intervene on our behalf.

Thank you.

Yours Sincerely,

P.Asante

Dear/ Madam,

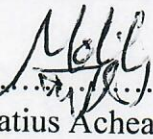
LODGE OF COMPLAINT

I wish to inform the Public Relations Compliant Committee of an encroachment of a temporal structure on my land at Adadientem.

I am a native of Akyem Kyebi who owns a piece of land at Adadientam. I share boundary with Mr. Annor Akrofi who also owns same piece of land. I realized at my last visit to the site that a temporal structure he is putting up has encroached into my land. I approached him and he claimed that portion belonged to him and not as I proposing.

I would be grateful you could intervene on my behalf to the settlement of this matter.

Yours Faithfully,



.....

Segyimase,

8th May, 2019.

Dear/ Madam,

LODGE OF COMPLAINT

I wish to bring to the notice of the Assembly that the Segyimase Funeral Committee has refused to pay to the Unit Committee an amount of money supposed to cater for the community's expenses.

The Segyimase community has a policy of not paying for water. However during funerals each person is to pay an amount of 20 pesewas in addition to their donation.

As we speak, the Unit committee has not received any amount from the Funeral Committee over a year now.

We would be glad if the Assembly could assist in authorizing them to make payment.

Yours Faithfully,

.....

Dear/ Madam,

LODGE OF COMPLAINT

I am a farmer who resides in Akyem Asiakwa where my farms. The goats of my neighbor Mr. Yaw Anigya has been invading my farm for the past months now. All efforts to him to keep his animals in their pen have proved futile. He verbally assaulted me the last time I confronted him on the issue again.

I am therefore appealing to your outfit to come to my aid and take steps since the animals are destroying my farm.
